

VacAway®

*Use with Hot Water Extraction
or Low Moisture Systems*

With "built-in" Rhino-Shield technology!

Ingredients: Proprietary... Unique blend of surfactants, polymers and acid-dye blockers.

Application: Pre-test all carpet for color fastness before applying this or any other product.

- ▶ Shake well, then dilute and apply according to the chart below with a low pressure sprayer using 30 to 60 PSI and a 8004 Tee-Jet.
- ▶ To insure a complete and even coverage, use a 50% overlapping spray pattern and brush or rake the product in immediately after application.
- ▶ For best results, allow 10 - 15 minutes dwell time then extract with hot water extraction or pads/bonnets. When extracting with Hot Water Extraction either use plain water or an acid rinse such as VacAway Rinse-N-Stop.
- ▶ Do not mix with other products... We recommend you use a dedicated sprayer and flush with water after use.

- ▶ For most spotting, use a Super Spotter of this product mixed according to the chart below (a 32oz pistol-grip spray bottle works great). If more aggressive or high pH spotters are used for post spotting, follow with an application of Super Spotter. The Super Spotter will help insure that post spotted areas are left with adequate stain resistance.

Precautions: We recommend you read the MSDS before using this product.

- ▶ Use in well ventilated area.
- ▶ Keep out of the reach of children.
- ▶ May cause eye or skin irritation... **Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

Skin Contact: Immediately wash skin with soap and water. Wash contaminated clothing before reuse.

- ▶ Never take internally.
- ▶ Do not re-use container. Dispose of this container according to government regulations.
- ▶ For professional use only.

A Revolutionary Prespray that imparts Acid-Dye Stain Resistance as it CLEANS!

- A very robust prespray, yet has a low pH of approx 6.0 - 6.2 when mixed.
- Revitalizes and enhances stain resistance in nylon as it cleans.
- Gives wool the stain resistance it deserves as you clean.
- Saves time and money for professionals and their customers.
- Fresh strawberry scent.
- Much faster drying time over conventional two-step clean and protect methods.

Dilution & Application Chart

Type Carpet	Dilution Rate	Application Rate	Coverage per concentrated gal	Super Spotter
Lightly soiled nylon	8oz per gallon of water (one gal makes seventeen)	200 - 300 SF per gal	3400 - 5100 SF	Mix 1 to 3 parts KleenShield w/ water
Medium to heavy soiled nylon	12oz per gallon of water (one gal makes eleven and 2/3)	200 - 300 SF per gal	2333 - 3500 SF	Mix 1 to 3 parts KleenShield w/ water
Wool (absorbs more than nylon and needs higher application rate)	12oz per gallon of water (one gal makes eleven and 2/3)	100 - 200 SF per gal	1166 - 2333 SF	Mix 1 to 3 parts KleenShield w/ water

1 Gallon

Blended in the USA for The Cleaner Image, 1037 Lakeview Dr, Hermitage, TN 37076 615-449-0708
