

One-Part Dye Stain Remover

Hazard Rating (HMIS/NFPA)

Fire	0	Reactivity
Health	2	0
	0	Special Hazard

Key: 0- minimal 1- Slight 2- Moderate 3- Serious 4- Severe

Description

Red Vanish for wool is a ONE-PART dye stain remover. When used according to directions, it is very effective on many dye stains. It is especially effective on Red Dye #40 found in powdered drinks, medicines, and many food products. Unlike competitive two-part products, it has a virtually indefinite shelf life.

Applications

May be used on all colorfast wool and synthetic carpeting.

Directions

Test for color fastness before applying any carpet cleaning product.

Directions for Wool.

- ▶ Shake before using.
- ▶ Sparingly apply product to the stain only (Do not over apply this product).
- ▶ In a few seconds, red dye stains will usually disappear or change to a yellowish color.... If there is no color change within a minute or two, apply more product and agitate slightly.
- ▶ After stain has changed color, immediately remove it with any wool safe spot remover.
- ▶ Rinse well after completion of above procedures (always rinse this product from wool carpet).

CAUTION: On wool, this product should only be applied cold and **NEVER** used with a heat transfer method! Using with heat **can cause severe damage.**

Directions for synthetics.

Because it is faster acting, regular Red Vanish is a better product for use on synthetics. However, this product can still be very effectively used, but **the directions for regular Red Vanish should be followed.**

See this products label and MSDS for additional information and instructions.

Benefits

- ▶ Very convenient (No Mixing).
- ▶ Virtually indefinite shelf-life.
- ▶ Cost effective .
- ▶ Works well on many dye stains; especially Red # 40.
- ▶ Free Rinsing.
