Professional Strength
Spotter & Deodorizer
for Homeowners

Each is a wonderful & safe "give-away spotter & deodorizer" designed to be a very effective marketing and customer retention Tool!

Description

These products are identical except for the names and are **encapsulating spot removers and deodorizers** designed and priced to be given away to both current and potential customers. You will virtually secure your future success when you make the GREEN-Wizard, POOF or Yowza "Give-Away Spotter Program" an important part of your marketing effort.

The labels are custom printed in full color with your company name, logo, phone number, etc. Home and business owners are super impressed by the effectiveness of the spotter, so when you give one away FREE with every estimate and job, *it becomes a very effective customer retention and marketing tool*. With your company name and number right on the bottle it makes it easy for your customers and potential customers to remember who they should call for their cleaning needs.

They are very effective on most general spots/stains found on colorfast carpet and upholstery. They remove blood, grass stains, salad oil, chocolate, protein, milk, beer, ice cream, soup, sauces, catsup, cough syrup, egg, mud and much more!

Since these spotters crystallize upon drying and don't leave a sticky residue to attract dirt, your customers can use them without fear of over application. Some customers will purchase extra bottles to take care of their spotting and deodorizing needs.

Directions

Test all carpeting/upholstery in an inconspicuous area for color fastness before applying any cleaning product.

Apply spotter liberally to the spot or stain. Agitate or rub gently to loosen and dissolve stain. A cloth dampened in water can be used to absorb excess product. The product encapsulates any remaining dirt and will be removed with the next vacuuming.

See product label and MSDS for cautions, additional information and instructions.

Benefits

- Great customer retention and marketing tool!
- Will not leave a dirt-attracting residue.
- Dries to a crystalline residue that will vacuum away.
- Removes and deodorizes a wide range of spots, stains and soils.
